Summary

- Software Consultant and Senior Engineer with **7+ years of experience** architecting and deploying full-stack Web/SaaS platforms, high-speed REST APIs, cloud databases, and autonomous AI agents. Proven track record building responsive Next.js/React portals, scalable Node.js/PHP backends, and robust workflow automation systems integrated with Stripe and travel GDS APIs. Expert in deploying production-grade AI solutions (LLMs, LangChain, intelligent OCR) on AWS and Docker to optimize enterprise processes.

Technical Skills

- **Full-Stack & SaaS:** React.js, Next.js, Fast SPAs, Responsive Dashboards, Angular, HTML5/CSS3, TypeScript, PERN Stack
- **APIs, Databases & Cloud:** High-Speed REST APIs, Node.js, Express, PHP, Python (FastAPI/Django), PostgreSQL, MySQL, MongoDB, Redis, AWS (EC2/S3), Docker, Stripe Integration
- **AI Agents & Automation:** Autonomous AI Agents, LangChain, OpenAI APIs, Gemini, Intelligent OCR, Prompt Automation, Generative AI, RAG Systems
- **Architecture & Leadership:** Microservices, System Architecture, Technical Leadership, Agile/Scrum, Mentorship, Production Deployment

Experience | 7+ Years

Software Consultant | Eyvy Solutions, Dubai, UAE | April 2025 - Present

- **Project Name:** [Zayro](#): Travel Booking Platform
- **Technical Skills:** Node.js, React, PostgreSQL, High-Speed REST APIs, Redis, AWS, OpenAI, Travel GDS
- **Key Achievements:**
 - Architected a fast React SPA portal backed by Node.js REST APIs for full-stack travel booking workflows across flights, hotels, and services.
 - Integrated and orchestrated travel GDS and supplier APIs (Amadeus, Akbar Travels, Benzy, Rayna Tours) with data normalization layers in PostgreSQL.
 - Optimized high-concurrency booking and availability searches using Redis caching and asynchronous cloud background workers.
 - Implemented AI-assisted customer service workflows for automated query resolution and booking retrieval using OpenAI models.
- **Project Name:** [Adsmith](#): AI-Powered Advertising Platform
- **Technical Skills:** React.js, Node.js, Fast SPAs, Supabase, OpenAI, Gemini, Autonomous AI Agents, Docker
- **Key Achievements:**
 - Built responsive SaaS management dashboards using React.js and Node.js for automated ad creation and cross-platform campaign management.
 - Engineered multi-model Generative AI video and ad workflows using OpenAI, Gemini, Veo 3.1, Sora 2 Pro and LTX-2 APIs with automated prompt engineering and status polling.
 - Designed Supabase Edge Functions and high-speed REST endpoints for automated geolocation mapping and campaign deployment.
- **Project Name:** [StrategyWorks](#): Enterprise Strategy & Portfolio Management
- **Technical Skills:** PHP, Angular, MySQL, High-Speed REST APIs, Stripe, AWS, Docker
- **Key Achievements:**
 - Developed responsive web portals and enterprise dashboards in Angular connected to robust PHP REST backend

microservices.

- Integrated Stripe payment gateways and automated subscription management for enterprise-tier portfolio management clients.
 - Architected scalable relational database schemas in MySQL to handle complex OKR, project execution, and financial reporting tracking.
 - Translated complex business requirements into scalable application workflows and technical implementations.
 - Deployed containerized applications on AWS using Docker, implementing role-based access control (RBAC) and automated DB backups.
- **Project Name:** [Rocketsites AI](#): AI Website Builder
 - **Technical Skills:** Python, Autonomous AI Agents, LangChain, Node.js, Fast SPAs, REST APIs
 - **Key Achievements:**
 - Developed autonomous AI agents using Python and LangChain capable of converting user prompts into fully constructed website structures.
 - Combined cloud LLMs with local AI sub-agents to execute specialized code generation and automated website customization tasks.
 - Integrated autonomous AI builder workflows into a fast drag-and-drop React/SPA editor for real-time visual editing.
-

Machine Learning Engineer | Ilaj Services, Dubai, UAE | June 2024 - April 2025

- **Project Name:** [Lazim](#): Comprehensive Owner Association Management Solution
 - **Technical Skills:** Python (FastAPI), Intelligent OCR, AWS (EC2/S3), Docker, PostgreSQL, REST APIs
 - **Key Achievements:**
 - Built GPU-accelerated intelligent OCR pipelines for automated document data extraction, reaching 95% accuracy and cutting manual effort by 15%.
 - Developed high-speed FastAPI REST microservices on AWS EC2 to automate accounting and ERP document processing workflows.
 - Designed responsive reporting dashboards and integrated backend workflows in PostgreSQL for real-time association management.
-

Senior Software Engineer | Datamatics, Bangalore, India | January 2022 - June 2024

- **Project:** [IDFC Bank LOS System](#)
 - **Technical Skills:** High-Speed REST APIs, Python (Django), PostgreSQL, Redis, Intelligent OCR, AWS
 - **Key Achievements:**
 - Designed high-speed Django REST APIs and cloud integrations with Salesforce CRM for real-time loan approval and disbursement workflows.
 - Implemented intelligent OCR and document processing for E-Stamp feature extraction and digital authentication, cutting loan processing time by 30%.
 - Optimized database query performance on PostgreSQL and integrated Redis for fast state management across high-volume loan operations.
-

Software Developer | Ecloud Solutions, Jaipur, India | May 2019 - January 2022

- **Project:** [RealmTalks](#)
 - **Technical Skills:** Node.js, Fast SPAs, PostgreSQL, Redis, REST APIs, WebRTC, Docker
 - **Key Achievements:**
 - Engineered a fast SPA portal and microservices architecture using Node.js, WebRTC, and Docker for real-time messaging and streaming.
 - Developed high-speed REST APIs and integrated Redis pub/sub with RabbitMQ for event-driven message handling and caching.
 - **AARM Health:** Developed responsive React web front-end and implemented secure REST auth APIs.
 - **Restodish:** Built Django REST backends, integrated Stripe payments, and designed MySQL schemas.
-

Education

- **Bachelor** | Rajasthan University, 2019

Languages

- Hindi, English
